Recognizing those who helped with the better-ment of our community.

Listed with their accomplishments if known.

The above should be expected of every adult and taught to every child and made the human law for all.
If harmers were punished we could have a wonderful world.

Freedom of speech and media safeguards freedom.
Our Constitution and Universal Declaration of Human Rights gives us many Freedoms.
Where they censor speech, information and books they will take away your freedom.

FREEDOM ISN'T FREE, MANY DIED FOR YOURS. We veterans remind you to: Be vigilant and be prepared to fight threats to your freedom. There are many here who are secretly against our way of life. Remember 9-11, Boston massacre, Detroit bomber, Mslm terrorists who nearly caused hundreds of deaths of children and Warren workers in 2026. And over 49,000 Mslm terror attacks since 9-11 worldwide and killing nearly 200 in USA.

And there are the greedy 1% who have excessive wealth dodge taxes, and Corporations who don't pay a living wage. We now have the resources to provide good clothing, food, housing, medical care and education to all citizens..

Before the first entry we acknowledge that there are many Heroes and Volunteers who declined to have their names put in this history because they choose to do good work anonymously. I will call these our Anonymous Heroes. Several of these have put in hundreds of hours doing good work in our community. We give them our thanks and gratitude for their wonderful works.

Neenay, An Indian woman who saved the Governor's life. In 1820 The new governor of Michigan was Lewis Cass. He had a problem. It seems that rumors were being spread that Michigan was a swamp and terrible place to live. This had happened because surveyors had been sent out during a wet season and found many wet areas. He began a campaign to build roads, lighthouses, and he negotiated land treaties with the remaining Indians. He wanted to see for himself what the state was like so he on a 4,200 mile trip around the state. He and his men camped near where Sault Ste Marie is now located. He met with the local chiefs and asked their permission to build a fort there. They told him, no left the meeting and went over to a

wigwam nearby and raised a British flag. Cass walked boldly over to the flagpole with only his interpreter, an Indian woman named Neenay. He told the chiefs thru his interpreter that no foreign flag was to be raised. Then he took the British flag down, stepped on it and removed it to his tent. At this point it was very likely that he would have been killed. But his interpreter who was the daughter of an Indian chief and who had gone to school told the chiefs that it would be unwise to kill him as it would bring in the American Army. And thru her another meeting was set up resulting in permission to build the fort and gifts to the Indians. Had there not been an interpreter or a common language another war would probably happened and thousands would have died. Humans need to communicate with each other especially in emergencies. Have you ever tried to talk to someone who does not understand English. What if your

life depended on it? Relating it to today's world 90% of the world does not understand English now and will not learn it in our lifetime. If a few people in each community would invest ten minutes a day to learning the international vocabulary, we could understand and be understood regardless of the local language. Why has it been mentioned here? Because it can save lives and save the US millions wasted in translating costs at the UN which all ends up in the trash within a short time. It has been scientifically proven to be the most time and cost efficient solution to the world language problem. And is historic fact that many people have died because of language nonunderstandings.

Neil, Gerald This man is one of my personal heroes. When I was 14 and got interested in history this man gave me one of his Warren histories which had been mimeographed. He was always a gentleman. Gerald was known to Art Miller township Supervisor and with Art's help held several positions in the City of Warren. While doing this Gerald researched and wrote a history of Warren. Since the Township books are now lost we depend on

Gerald's history for much of the history of those days. He wrote two little books about Warren History and a book of maps. We owe him a debt of gratitude for his work. I am still trying to find a good picture of him. If anyone has one please loan me a copy so I can put his picture in my book honoring him. Need More Information

Onderchanin, Janet waiting on bio. Janet is a nice person who works at the Warren Home Depot. She rescues animals with special attention to birds. She has a whole room at her house to care for wounded birds. I visited there once and was amazed at

the personality birds can exhibit. In some ways they act just like dogs. Some want to be petted.

from Warren Civil War lived near Canfield (13 mile) and Hayes. His granddaughter gave me his papers to photograph. He had a farm at 13 Mile Road near Hayes Historian Wesley Arnold interviewed family. A memorial with his name on it and 29 other soldiers was stolen by the Warren Hysterical grave robbing gang in 2011 without just cause. They have stolen at least five memorials including a memorial to all veterans and those who died in attacks on our country. (Such as Pearl Harbor and 9-11) More memorials are now missing. They do not own the memorials or the cemetery. This was done in secret without a vote of

the membership or a public hearing. Nothing was found wrong with these memorials at a public meeting afterwords. This shows disrespect to our soldiers and those who died including 400 policemen and firemen. We veterans want these memorials replaced. See macombhistory.us for details.
